

FADGI-COMPLIANT PHOTO CAPTURE SERVICES

YOUR IMAGES ARE TIMELESS. THAT'S OUR PROMISE.

IMES is proud to offer the highest quality and highest resolution photo capture services currently available for the preservation and digital reproduction of your treasured 2D assets. Our state-of-the-art Phase One Camera capture system includes a 150MP camera utilizing Capture One software to achieve perfectly color-balanced images with maximum diatomic range, edge to edge captures that vastly exceed FADGI 4-Star and Metamorfoze strictest standards.

WHY CHOOSE IMES FOR HIGH-RESOLUTION IMAGE PHOTO CAPTURE?

1. SECURITY. We store, digitize assets, transcode, and restore all on site. You save time and money on shipping, as well as eliminate any potential loss or damage to your archive that could occur from excess handling.

2. ACCURACY. High-resolution photo capture is a contactless, time-saving way to add an additional layer of insight and accuracy to your image collection. IMES can remotely assess the condition of your item, and our team will alert you immediately to anything at risk of degradation.

3. EXPERIENCE. Our digitization facility is FADGI-compliant in its hardware, software, and workflow, and our archivists are certified by DT Cultural Heritage in Modern Digitization. We participate in the development of industry best practices through our involvement with the Library of Congress and the Association of Moving Image Archivists.

USE CASES

While high-resolution image photo capture is a useful tool for the optimal care of any collection, it has the exciting potential to offer cultural and historic organizations the opportunity not just to preserve your assets for future generations to view, but also to make them accessible right now to a global audience online.

MAY WE INTRODUCE OURSELVES?

You've been tasked with the critical and complex role of both preserving irreplaceable assets, and identifying the evolving technology to keep this content accessible for the world's audiences.

Everyone at IMES cares about your archive as much as you do. We think and act as an extension of your own team to meet the current and future needs of your archive for both historical preservation and revenue generation. We'll always hold ourselves accountable to your standards.

WE GET IT, AND WE'LL GET IT DONE.

Our promise to you:

> **PASSION AND EXPERTISE**

Experts, industry veterans, and specialists who truly love what they do; we work as an extension of your team, giving you confidence to solve any challenge that comes your way.

> **ONE STOP SHOP**

Our complete chain of custody and services can support the entire asset lifecycle. We'll make it easier to solve a diverse set of challenges by tailoring solutions to meet your exact needs and requirements.

> **INDUSTRY-LEADING TECHNOLOGY**

Our tools and technology enable us to provide world class security, remediation, and inventory management, so you can confidently access your most important assets — now and forever — wherever they are.
